

Welcome to Wilsonart®

Acknowledged as pioneers in colour and texture, Wilsonart® International has built an enviable record as a Global leader in decorative surface solutions. Continuous product development, stringent quality controls and the highest service levels have separated Wilsonart® from competitors since 1956. And the business still holds firm to founder Ralph Wilson's core philosophies almost 60 years later.

The Wilsonart® team's passion is in providing products and systems that surpass the aspirations of our customers in markets all over the World. Our products are seen in almost every environment - homes, schools, offices, hospitals, retail stores, hotels, airports, anywhere that requires a decorative surface solution.

With manufacturing facilities across Europe, North America and Asia, Wilsonart® is strategically positioned to supply and deliver your decorative surface requirements; on time, every time.

In the Australia and New Zealand (ANZ) region, Wilsonart® decorative materials are available through our exclusive distribution network, HVG in Australia and Mercer in New Zealand. To further support our key customers in ANZ, the Wilsonart® corporate team is on hand to assist with managing product availability for your projects, as well as day-to-day technical support.

At Wilsonart® we work with our customers, turning their creative visions into reality.

Wilsonart® AEON™ Enhanced Performance

AEON™ Enhanced Performance delivers a product with unique wear characteristics without compromising design flexibility. From satin to high-gloss, timber grain to quarry, there is a colour or finish to suit most applications, whether it be residential or commercial.

The engineering process for AEON™ takes more time and is more expensive to produce, however, the end result is a material that is measurably harder and stronger. Two sizes of aluminium particle in the surface coat of the laminate provides a surface that is 3 – 5 times more durable than standard laminate, whereby objects seem to glide across the surface as if they were on ball bearings.

Unlike competitor products, Wilsonart® passes the material through this 'bathing' process twice to ensure equal coverage of the particles.

AEON™ Enhanced Performance Laminate is also available in a series of High-Definition [HD] finishes, which takes high-pressure laminate to a whole new level. Gloss and satin, rough and smooth, HD integrates the best of everything to create a truly unique texture and optical effect.

The unique strength and wear resistance of AEON™ Enhanced Performance Laminate sees it being used in high-wear areas for both horizontal and vertical applications. Designers and architects for some time have seen the benefit in using AEON™ and the product has not disappointed.

Backed with a 15 year limited warranty, AEON™ Enhanced Performance is made only by Wilsonart® and is only available in Wilsonart® Laminates.

HIGH PERFORMANCE LAMINATES

Product Range & Applications

Wilsonart® LAMINATE PANELS

Affordable panel solution without compromising look and durability.

Wilsonart® Panel Products provide a versatile pre-finished surface which is ready for installation, easy to maintain and extremely hardwearing. This multi-purpose panel looks great, in addition to being scratch and stain resistant, which makes it perfect for an interior space.

The Wilsonart® Panel Products range offers designers access to over 60 designs and textures, delivering contemporary and traditional decors which can be used in many applications kitchens, furniture, shop fitting, bedrooms, hotels, caravans and many more, the only restraint is your imagination!

Wilsonart® COMPACT LAMINATE

A long lasting, great looking solution for high-wear areas.

Wilsonart® Compact Laminate is a high pressure, non-porous product that provides a multitude of functional applications, from toilet cubicles to tables to lockers.

Wilsonart® Compact Laminate can be produced in various thicknesses up to 25 mm, with the capacity to not require a substrate. Wilsonart® Compact Laminate is useful where flat, freestanding panels are needed for interior decorative and/or functional purposes. Wilsonart® Compact Laminate provides a high resistance to impact and stress cracking, and is available in a wide range of decors to suit your project.

Wilsonart® CHEMSURF®

(Chemical Resistant Laminate and Protector Compact Laminate)
Best in class products for the toughest environments.

Chemsurf® is specifically designed for highly corrosive environments, providing an exceptional chemical and wear resistance in an array of decorative patterns. This versatile laminate is an ideal alternative to slate, stainless steel or epoxy where cost or weight is often prohibitive. Chemsurf® is available in postformed worktop and as a highly scratch resistant compact laminate in a 16mm thick solid panel.

Resistant to more than 105 stain and chemical agents, Chemsurf® is suitable for areas such as medical and educational facilities, heavy traffic, and bacterial contamination. Specific applications include laboratory cabinets, shelving, counters and tabletops in hospitals, beauty salons and product testing facilities.

Wilsonart® ADHESIVES

High-performance products which won't harm the environment.

Wilsonart® Adhesives have held together many of America's foremost projects since 1970. Wilsonart®'s breadth of contact adhesives, cleaners, and solvents are superior in terms of selection and unmatched in terms of performance.

Wilsonart® Adhesives has a line-up of water based (PVA) adhesives and specialty products sure to meet the needs of any laminating or woodworking operation. From fast setting adhesives to high performing wood glues, Wilsonart® Adhesives has the right tool for the right job.

Many Wilsonart® Adhesives have been certified by UL GREENGUARD, significantly reducing indoor air pollution without cost or effort.

Wilsonart® DIGITAL ART COLLECTION

The next generation of decorative surface design.

Internationally renowned designer Lars Contzen has inspired the next generation of Wilsonart® decorative surface design. The innovative Digital Art Collection showcases Lars Contzen's excellence in colour, shape and lines which offer unique characteristics which gives clients the opportunity to obtain a décor that is perfectly matched to their space.

Wilsonart® MARKER BOARD LAMINATE

Marker board with a marked difference.

From conference rooms to hospital cafeterias, Wilsonart® Marker Board Laminate offers great versatility and added decorative opportunities, especially when compared to porcelain or epoxy-coated steel. As a dual-purpose board for projection and dry or wet erase uses, Wilsonart® Marker Board Laminate is also easy to clean and maintain. Plus, Wilsonart® Marker Board Laminate has also received Greenguard Indoor Air Quality certification ensuring that Wilsonart® Marker Board Laminate is acceptable for use in more sensitive environments such as schools and healthcare facilities.

Wilsonart® METALAMINATES™

Stunning designs, harnessing the power of metallurgy.

From decorative brushed steel finishes to punched steel and copper designs, Wilsonart® Metalaminate™ offers designers endless possibilities to use fine metal finishes. Wilsonart® Metalaminates™ is suited for vertical interior applications where a special accent is required or a special mood desired. Wilsonart® Metalaminates™ are appropriate for vertical areas in hotel and office lobbies, theatres, retail facilities and restaurants, where the special eye-catching properties add a prestigious appeal.

Wilsonart® EDGING

The finishing touch with added durability.

At last, an edgeband solution that works in harmony with most Wilsonart® laminate designs. Offering matching textures and designs, Wilsonart® Edgeband is a cost-effective edge solution for all your commercial projects. In addition to being low cost, it offers many other benefits over traditional HPL strip edging including smoother finish, heat resistance as well as minimising heat shrinkage and dust for easy installation. Wilsonart® Edgeband is the perfect solution for cabinets, cabinet doors, drawers, shelves, tables, furniture, fixtures, and benchtops.

Committed to Sustainable Design

There are 3 key goals driving Wilsonart® sustainability initiatives:

Zero waste | Zero impact | Zero barriers

Zero waste has focused Wilsonart® on eliminating unnecessary materials, processes and waste from the products we make and sell. In a 2-year period, Wilsonart® has reduced its raw material waste by 3.5 million kilograms.

Zero impact policies has brought about greater focus on recycling to help our environment, with the result that Wilsonart® now recycles 2.1 million kilograms of waste more than it did not too long ago.

Improving the quality of indoor air is vital for human health and Wilsonart® Laminate exceeds the industry's highest standards for Indoor Air Quality with SCS indoor advantage and Greenguard Gold.

The Greenguard Gold certification ensures that a product has met some of the world's most rigorous and comprehensive standards for low emissions of volatile organic compounds (VOCs) into indoor air.

This standard includes health based criteria for additional chemicals and also requires lower total VOC emission levels to ensure that products are acceptable for use in more sensitive environments such as schools and healthcare facilities.

Zero barriers focuses on the things Wilsonart® people can do in the local environment. This includes community programmes and practical measures such as providing end-of-line colour sample chips to children and art students for their projects, reducing costs for schools while adding to our recycling commitment.

Sustainability is a full-circle program at Wilsonart®

HIGH PERFORMANCE LAMINATES

Product Range & Applications

It incorporates not only our impact on the environment but also our long-term commitment to provide high quality products, reliable services, secure jobs and strong community support.

Wilsonart X You

The joy of individual interpretation.

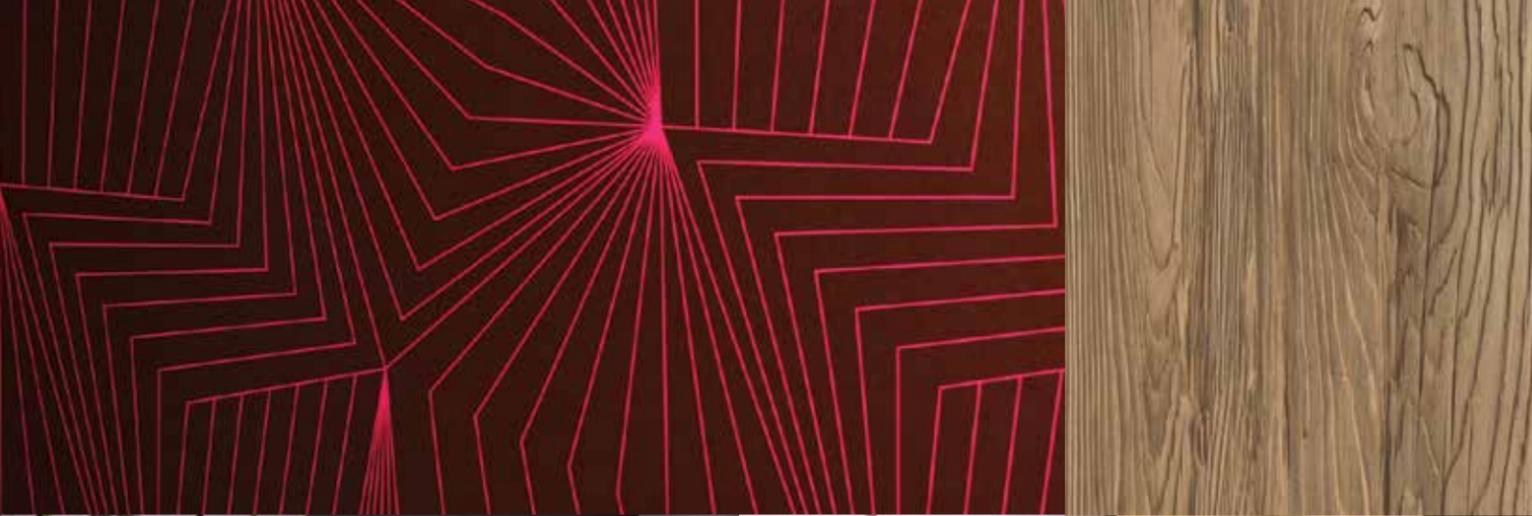

Wilsonart® X You custom laminate offers you the opportunity to uniquely design and create custom laminate for your office space, retail displays, cafe tables, wall coverings and other areas where company logos or custom work can be used. Wilsonart® X You custom laminate capability extends to high-pressure laminate, compact laminate and marker board, offering the chance to customise almost any environment.

Wilsonart® FIRE-RATED LAMINATE

A material with added peace of mind when it counts.

Wilsonart® Fire-Rated Laminate is produced for interior applications where a decorative surface must combine durability, easy care and style with resistance to flame spread and smoke development in case of fire. It can be applied for shelving and cabinets, interior doors, as well as wall panel and divider systems. This laminate is particularly appropriate for surfacing furniture in public places such as airports, hotels, office buildings, hospitals and schools.

Using Wilsonart® in your Project

Wilsonart® has been helping customers along the journey of selecting surfaces for their businesses and homes for nearly 60 years. From design inspiration, through manufacture and on to final delivery, Wilsonart will always be there to assist.

Wilsonart® decorative surfaces are widely adopted by designers and highly regarded by all. Whatever your project - home, school, food outlet or hospital, Wilsonart has a material to suit your needs. Wilsonart offers endless design possibilities through our extensive range of colours, patterns and textures, allowing you to closely match your vision.

For the ANZ region, the Wilsonart corporate team are on hand to assist with product knowledge, samples, and technical advice.
